

Absolute VG

Half the Weight,
Twice the Life, and
All the Energy Savings

Camfil Takes V-Bank HEPA Filters to the Next Level Absolute VG

The Absolute VG line of premium HEPA-rated V-bank products has expanded to include both gel seal and pour-in-place polyurethane gaskets. Critical processes such as life sciences, healthcare, microelectronics, and bio/pharma industries can now select the gasket style ideally suited to their air purity needs.

Plastic-framed filters may be perceived as less dependable than metal-framed, aluminum separator HEPA box-style filters, but no more. Camfil's design expertise and quality manufacturing have harnessed the benefits of plastic frames without sacrificing protection and safety.

Now Available in Both Polyurethane Seamless and Gel Seal Gaskets

V-shaped sides
More strength, less weight
Strength through superior design

Rounded corners

- Worker safety (fewer cuts and abrasions, reduced risk of head injury). This is a big issue.)
- Better for bag-in/bag-out (BIBO) rounded plastic corners will not cut the change bag.

Two handling straps

Half the Weight

- Lightweight for easy installation
- Ideal for overhead applications

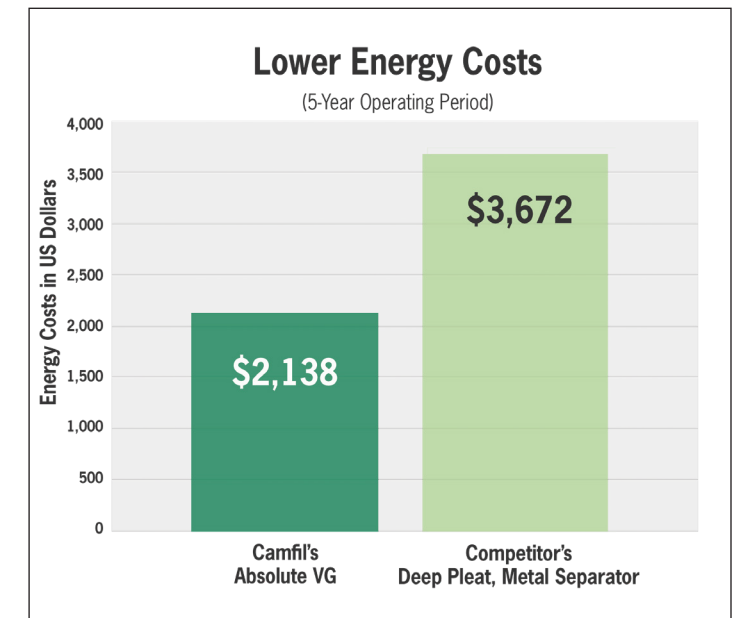

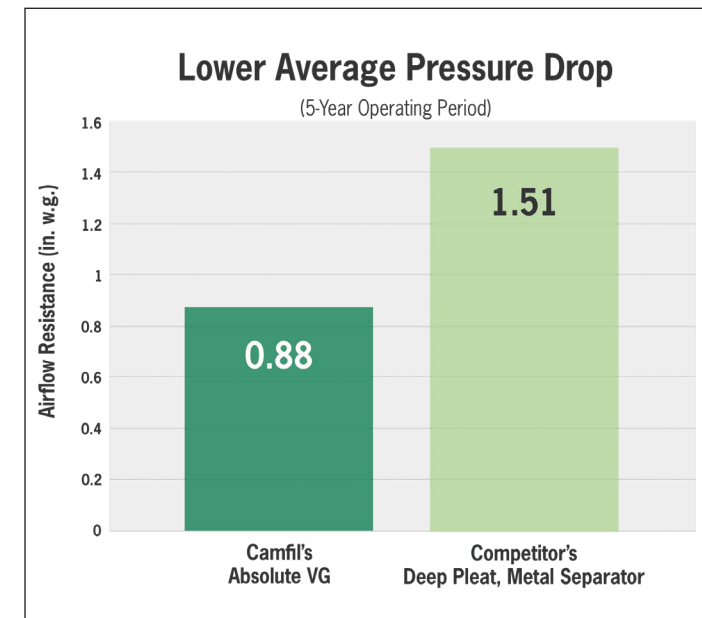

Twice the Life

- Strong and rigid design for long service life
- Less maintenance cost and fewer labor hours

Energy Savings

- Low average pressure drop
- Lowest total cost of ownership

1.) 2'x2' filters analyzed at 500 ft/min airflow 2.) \$0.13/kWhr

Camfil – a global leader in air filters and clean air solutions.

For more than half a century, Camfil has been helping people breathe cleaner air. As a leading manufacturer of premium clean air solutions, we provide commercial and industrial systems for air filtration and air pollution control that improve worker and equipment productivity, minimize energy, and benefit human health and the environment. We firmly believe that the best solutions for our customers are the best solutions for our planet, too. That's why every step of the way – from design to delivery and across the product life cycle – we consider the impact of what we do on people and the world around us. Through a fresh approach to problem-solving, innovative design, precise process control and a strong customer focus we aim to conserve more, use less and find better ways – so we can all breathe easier.

The Camfil Group is headquartered in Stockholm, Sweden, and has 30 manufacturing sites, six R&D centers, local sales offices in 35+ countries, and about 5,600 employees and growing. We proudly serve and support customers in a wide variety of industries and communities across the world. To discover how Camfil can help you to protect people, processes and the environment, visit us at www.camfil.us.
